

STRATEGOS *Technical Workshop*

Rapid development of Enterprise Web Applications by using the XAF framework

14.00-17.30, November 22th, 2019, Balbi I Class Room, via Balbi, 16126 Genova
POC: Ing.Luca Fioravanti, Blizzard, l.fioravanti@blizzardsrl.com

Main features of XAF one of the most powerful frameworks for the DotNet environment especially for mid sized projects are presented with special attention to highlight rapid development issue, pros and cons.

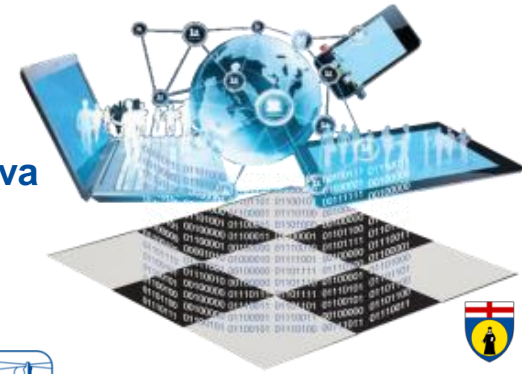

Workshop Description:

The Development of **Web Applications** is enormously boosted by the usage of so called frameworks, so this Workshop focuses exactly on how to use XAF in such sense for **Rapid Development**.

The Workshop presents main features of this framework, putting in evidence the Advantages for DotNet Environment with special attention to **Middle Sized Projects**.

Obviously the pros and cons as well as strengths and weaknesses are fairly highlighted, considering that there is not an absolutely perfect framework for all kinds of projects. The Workshop provides also criteria to finalize the good choices for **Rapid Development** depending on the project characteristics, needs and constraints
